

GARDEN ARCHERY

What you need -

- Lollipop sticks (soaked in water)
- Dental floss or Cotton
- Biodegradable cotton buds (skewers with cotton wool on the end!)
- Knife (Stanley or craft knife)
- Scissors

How to:

- Soak the lollipop sticks for at least 1 hour
- Cut two small notches at each end of the lollipop stick so it looks Image 1:
(You can also cut out a notch halfway down the stick to rest your arrow if you prefer)
- Tie the floss around one end of the lollipop stick and wrap it around a few times.
- Gently bend the lollipop stick, then wrap and tie the floss around the other end. Make sure it is taut and on the same side of the stick at both ends.
- Your bow is ready – use a cotton bud to aim and fire!

IMAGE 1

CHALLENGE – How many arrows can you get in to a cup in 2 minutes?

SAFETY FIRST

- Knife and Scissors – Young People should be appropriately supervised when cutting the notches and string. Younger members may require help.
- Projectiles – While cotton buds are only small, they may cause damage if used irresponsibly. Arrows should not be shot at other people or pets.
