

## PEBBLE PAINTING

### What you need -

- A palm sized pebble
- pens or paint to decorate your pebbles

There is a rock painting craze sweeping the nation and if you haven't heard of it then it's quite possible you've been living under a rock!

Here's how it works. You paint a rock, stone or pebble in any way you would like and leave it for someone else to stumble upon with the intention of brightening up their day. Its as simple as that.

Use acrylic paint, nail varnish or permanent marker pens

### . How to:

- Find a pebble stone or rock.
- Decorate it!
- Tag it with #kernowpebbles so if it is found people can share your pebble's journey
- Hide it somewhere when you are out and about to cheer someone up.

**CHALLENGE** – Can you find someone else's Camp@Home pebble?

### SAFETY FIRST

- Paint and Pens – When using some forms of paint, varnish, or markers they can emit hazardous odours. Please make sure you follow the manufacturer's instructions and work in a well ventilated area.
