

How to make a Poppy Pinwheel

You will need:

- 2 Pieces of Red Card
- A small piece of Green Card
- Scissors
- A paper straw
- A split pin
- Black Marker pen

How to make:

- Using the black marker, colour the top of the split pin and leave to dry.
- Using the template, cut out the shape of the poppy pinwheel on each piece of the red card. Make sure you cut all the dotted lines on the template too.
- Create hole where each of the solid black dots are on the template. Do this on both pieces of red card, then make a hole in the middle of each card.
- Fold the pointed end of each of your pieces of red card to the middle (Picture A)
- Place one of your folded pieces of red card on top of the other (Picture B) and secure together by threading the split pin through the holes.
- Using sticky tape, attach the straw to the back of your poppy. This is your stalk.
